Some exciting topics you'll learn about:

- Where lupus research is headed
- Why men's risk for lupus is lower
- How less salt may help lupus symptoms
- Link between gut bacteria and blood clots
- What existing drugs might work for lupus
- How Brenda Blackmon advocates for her daughter with lupus
- How you can advocate for better lupus care

Advance registration is required -- [Click here to register](#) or call 212-685-4118 for more information.

#### **About the Lupus Research Institute**

The Lupus Research Institute (LRI), the world's leading private supporter of novel research in lupus, pioneers discovery and champions scientific creativity as it has successfully demonstrated the power of innovation to propel scientific solutions in this complex autoimmune disease.
